

Bride's Name: _____
Date of Wedding: _____
Time: _____

Note: For those who have scheduled a wedding date at Heinz Chapel, please submit this information attached to your completed wedding application. Please advise your Organist of any changes in your music -- additions or deletions -- no later than one month prior to your wedding.

Processional March

May be used for entire entry march or for bridal attendants:

_____ Jeremiah Clarke, Trumpet Voluntary in D Major
_____ John Stanley, Trumpet Voluntary in D Major
_____ Marc-Antoine Charpentier, Prelude (from *Te Deum*)
_____ André Camppra, Rigaudon (from *Idomenée*)
_____ Ludwig van Beethoven, "Ode to Joy"
_____ Pachelbel Canon

If you want a second march **for the bride only**, one of the following is recommended:

_____ Richard Wagner, Wedding Chorus (from *Lohengrin*)
Used only for entrance of the bride or possibly when there is one bridal attendant.
May be preceded by any of the marches listed above.
If you have a professional trumpeter with organ for any of the items above, the trumpet drops out for the Wagner because of the musical problems caused by the change in keys.

_____ George Frideric Handel, Overture to the *Fireworks Music*
A good alternative for the traditional Wagner

_____ George Frideric Handel, "The Rejoicing" from the Fireworks Music

Recessional March

You need only **one march**:

_____ Henry Purcell, Trumpet Tune in C Major
_____ Felix Mendelssohn, Wedding Music (from *Midsummer Night's Dream*)
_____ Ludwig van Beethoven, "Ode to Joy"
_____ George Frideric Handel, Hornpipe (from *Water Music*)
_____ Benedetto Marcello, Psalm 19 "The Heaven 's declare the glory of God"
_____ Charles-Marie Widor, Toccata (from the *Fifth Organ Symphony*)
_____ Louis Vierne, Finale (from *First Organ Symphony*)
A festive organ piece combining recessional march and postlude

Please attach to this checklist, the name(s) of any additional musicians who will be performing at your wedding. List the pieces to be performed. Please indicate if NO organ accompaniment is required.
